

*Over 30 Years of Engineering and Architectural Design Excellence*

**SPECTRUM**  
LAND PLANNING, INC.

# Company Info

Spectrum Land Planning, Inc. was founded in 1976. Our staff of licensed Civil Engineers and Architects provides cost effective solutions to complex problems on a wide variety of residential, commercial and industrial projects throughout the United States.

In 1979 Spectrum began designing military family housing. Since then, we have designed more than 29,000 units of housing in more than 80 projects at 130 sites in 18 states and Cuba. The projects ranged in size from 50 to 3,500 units. Of these housing units, 14,000 were privatization.

Spectrum has received numerous awards for design, including the prestigious Department of Defense Award for Family Housing Design for a 600-unit project at Camp Pendleton, California, and the NAVFAC Design Excellence Award for a 300-unit project at Alameda.

The firm has distinguished itself as an innovative problem solver in the design arena with expertise provided by its staff in single and multi-family housing projects, office/retail developments, church facilities and commercial projects.

We are dedicated to the philosophy of providing outstanding service and design excellence to all of our clients.

# Design Support Services

Spectrum offers cutting edge computer services and color printing reproduction. We can provide separate operations ranging from project management, specifications, and quantity estimating to a full complement of related administrative tasks extending from feasibility studies through construction advisory services.
